Blauparts would like to announce our BMW oil change kits for the E36 platform Z3 models.

Keep your BMW Z3 oil change maintenance up to date with our Official OE oil change kits. Our BMW oil change kits for the Z3 2.8 liter engine feature the appropriate quantity of factory approved BMW Longlife-01 fully synthetic 5w30 Ravenol HCL oil from Germany and the highest quality oil filter from Mahle Original.

About Ravenol Oil: RAVENOL oil is 100% genuine German. Manufactured and bottled in Germany since 1946! RAVENOL mixes and bottles their own proprietary premium blend and brand of oils to the highest European O.E.M quality standards. RAVENOL oils are unique in that they have TOTAL CONTROL over the QUALITY during their manufacturing process. Their lubricants are manufactured within their own refinery and factory in Germany to the highest European O.E.M quality standards and have been awarded many O.E.M APPROVALS for superior quality.

We wish to thank our loyal customers for their continued support! For over 25 years Blauparts vision has been to provide the highest quality products along with the best customer service! We feel our BMW oil change kits are an excellent reflection of our company values and of the quality BMW automobiles should be serviced with. Please feel free to contact us with any questions you may have on our oil change kits.
