**Release Date:** 6/29/2015

Blauparts would like to announce our Volkswagen Beetle oil change kits for the 1.8TSI engines.

Keep your Beetle oil change service and maintenance up to date with our German VW oil change kits. Our oil change kits feature premium German Ravenol oils and O.E.M Mahle Original oil filters. Ravenol oils feature their legendary CleanSynto Technology. Ravenol CleanSynto Technology has proven to clean and keep internal engine components cleaner, maximize engine durability, reduce maintenance costs, improve fuel mileage, and reduce engine emissions. Ravenol oils also feature formal factory approvals. Mahle is an Official O.E. oil filter manufacturer and has been supplying oil filters to the German automakers for years. Since the late 1920s Mahle has set the standard in filtration as Germany's premier automotive filter manufacturer. Mahle's continuous engineering and innovation is driven by performance. Mahle oil filters use the latest generation in oil filter designs and state-of-the-art oil filter materials.

We offer two different motor oil options for our VW Beetle 1.8TSI oil change kits. The 5w40 kit offers a high-quality full-synthetic Ravenol VMO with formal VW 502 00 motor oil approvals as required for the 1.8TSI engines. The 5w30 kit offers a quality Ravenol HPS synthetic blend for the more cost conscious individual, while yet maintaining VW 502 00 oil specifications as required for the VW Beetle 1.8TSI engine. Both motor oils meet extended oil change intervals according to Volkswagen recommendations.

We wish to thank our customers for their continued support! For over 25 years Blauparts vision has been to provide the highest quality products along with the best customer service! We feel our Volkswagen Beetle oil change kits are an excellent reflection of our company values and of the quality VW automobiles should be serviced with. Please feel free to contact us with any questions you may have on our oil change kits.
