**Blau Part Number:** GC32014-H

**OE Part Number:** 4F0 201 511 E

**Release Date:** 7/29/2015

Blauparts is pleased to offer the Mahle Original Audi S8 fuel filter for the 5.2L V10 engine! Mahle is an Official O.E. fuel filter manufacturer and has been supplying fuel filters to the German automakers for years. Since the late 1920's Mahle has set the standard in filtration as Germany's premier automotive filter manufacturer. Mahle's continuous engineering and innovation is driven by performance. Mahle Audi fuel filters use the latest generation in fuel filter designs and state-of-the-art filter material.

In most cases the fuel filter is one of the most overlooked scheduled maintenance items on a vehicle. Your Audi S8 fuel filter is responsible for the removal of dirt, dust, soot, particles, contaminants, water and other substances that can negatively affect the efficiency of your engine's fuel injection systems. A bad or plugged fuel filter can result in poor fuel economy and a lack of engine performance. Regular Audi fuel filter changes can result in the protection of your fuel injection system, trouble-free engine operation, and help avoid inconvenient breakdowns and costly engine repairs.

We recommend replacing your Audi S8 fuel filter every 40-50,000 miles. The factory doesn't specify a specific interval for changing the fuel filter. However, a good rule is to change your fuel filter around the same time as your engine tune up.

We hope all BLAU NEWS readers have found this informative. We wish to thank all our customers for their continued support! If you would like more information on Mahle Original Audi S8 fuel filters and other fuel filter applications we have available please feel free to contact us.
