- Screw-on caps to prevent spillage and fluid contamination

**More About Ravenol Bag In Box:** The RAVENOL BAG IN BOX system is made up of a robust outer box and a plastic bag with an integrated outlet tap. This container system ensures both safe transport of Ravenol's high-quality lubricants, space-saving and sustainable disposal of the packaging components. Once the bag is empty, it can be easily taken from the outer box. The box can be collapsed and recycled well the bag can be disposed. The system saves up to 80% space with the empty packages as compared to other oil canisters of the same package size as well as simple disposal.
