

NEW PRODUCT: BMW 128i Transmission Fluid Filter Change Kit - GA6L45R

April 12, 2016

Everything you need for your BMW E82 and E88 automatic transmission fluid and filter change service!

Subject: BMW Transmission Fluid and Filter Change Service Kit

Application: 2008-2013 BMW 128i (E82 and E88 Platforms)(GA6L45R Transmission Type)

Part Number: F2A1333-A

Release Date: 4/12/2016

We at Blauparts would like to announce our NEW BMW 128i Transmission Fluid (ATF) and Filter Change Service Kit for the BMW GA6L45R 6-speed automatic transmission.

We have assembled all the necessary parts you will need to allow for an easy solution to a BMW GA6L45R transmission fluid and filter service. Our kits include the transmission filter, transmission pan gasket, fill and drain plugs with seals, assorted transmission pan hardware, and the appropriate fully synthetic BMW 83222163514 (Texaco ETL-8072B) fluid specification for the BMW GM 6-speed transmission.

Why should you change your BMW 128i transmission fluid and transmission filter? Changing your BMW transmission fluid and filter is one simple step in helping extend the life of your transmission. Your BMW transmission has hundreds of moving components. Over time these internal components mesh with one another, begin to wear, and create fine metallic particles. These fine metallic particles contaminate your BMW transmission fluid and plug the transmission filter. This contamination affects your transmissions efficiency and long term performance, causing more friction and wear on transmission components. By having a regular transmission fluid and filter service interval for your BMW, you will easily extend the life of your transmission. With clean transmission fluid and a fresh transmission filter you will be providing clean lubrication and proper filtration for your transmission. This important maintenance interval will support a long lasting well lubricated and protected transmission, minimizing chances of costly BMW transmission repairs and problems.

BMW Transmission Fluid (ATF) and Filter Change Kit Applications:

2008-2013 BMW 128i 3.0L I6 Automatic Transmission Fluid Filter Kit (E82, E88) w/ GA6L45R Automatic Transmission

We feel our automatic transmission fluid and filter change kits are an excellent reflection of our company values and of the quality your European automobile should be serviced with. Our convenient service kits are a helpful service to allow you an easier service of your BMW transmission fluid and filter. We wish to thank all our customers for their continued support! Feel free to contact us with any questions on our transmission fluid and filter change kits.
