April 12, 2016

**Everything you need for your Mercedes-Benz E320 automatic transmission fluid and filter change service!**

**Subject: Mercedes-Benz Transmission Fluid and Filter Change Service Kit**

**Application: 1996-2006 Mercedes E320 (722.6 Transmission Type)**

**Part Number: F2A1501-JJ**

**Release Date: 4/12/2016**

We at Blauparts would like to announce our NEW Mercedes-Benz E320 Transmission Fluid (ATF) and Filter Change Service Kit for the 722.6 type 5-speed automatic transmission.

We have assembled all the necessary parts you will need to allow for an easy solution to a Mercedes 5-speed transmission fluid and filter service. Our kits include the transmission filter, transmission pan gasket, fill and drain plugs with seals, assorted transmission pan hardware, and the appropriate factory approved Mercedes-Benz MB 236.10 (OE Part Number: A 001 989 21 03) fluid specification for the Mercedes 5-speed transmission.

Why should you change your Mercedes-Benz transmission fluid and transmission filter? Changing your Mercedes-Benz transmission fluid and filter is one simple step in helping extend the life of your transmission. Your Mercedes transmission has hundreds of moving components. Over time these internal components mesh with one another, begin to wear, and create fine metallic particles. These fine metallic particles contaminate your Mercedes-Benz transmission fluid and plug the transmission filter. This contamination affects your transmissions efficiency and long term performance, causing more friction and wear on transmission components. By having a regular transmission fluid and filter service interval for your Mercedes-Benz, you will easily extend the life of your transmission. With clean transmission fluid and a fresh transmission filter you will be providing clean lubrication and proper filtration for your transmission. This important maintenance interval will support a long lasting well lubricated and protected transmission, minimizing chances of costly Mercedes-Benz transmission repairs and problems.

**Mercedes-Benz Transmission Fluid (ATF) and Filter Change Kit Applications:**

**1996-2005 Mercedes-Benz E320 - w/ 3.2L 6 Cylinder Gasoline Engine and 5 Speed Automatic Transmission 722.6**

**2005-2006 Mercedes-Benz E320 - w/ 3.2L 6 Cylinder Diesel Engine and 5 Speed Automatic Transmission 722.6**

We feel our automatic transmission fluid and filter change kits are an excellent reflection of our company values and of the quality your European automobile should be serviced with. Our convenient service kits are a helpful service to allow you an easier service of your Mercedes-Benz transmission fluid and filter. We wish to thank all our customers for their continued support! Feel free to contact us with any questions on our transmission fluid and filter change kits.
