Blauparts is pleased to have available our Audi A8 oil change kit options for the 3.0T engine.

Keep your 3.0T Audi A8 oil change service up to date with our BLAU oil change kits. Our Audi A8 oil change kits feature German RAVENOL oils, Official O.E. Mahle Original oil filters, and an OEM drain plug. RAVENOL oils use the highest quality group 3 and group 4 synthetics in the industry and feature their legendary CleanSynto Technology. RAVENOL CleanSynto Technology has proven to clean and keep internal engine components cleaner, maximize engine durability, reduce maintenance costs, improve fuel mileage, and reduce engine emissions. RAVENOL oils also feature formal factory approvals from Audi and Volkswagen. We currently are using an Official OE Audi A8 oil filter and drain plug with sealing washer in this kit. Take comfort in knowing your Audi A8 use the same level of quality oil filter and drain plug the factory uses.

We offer two different motor oil options for our Audi A8 3.0T oil change kits. The 5w40 kit offers a high-quality full-synthetic RAVENOL VMO with formal Audi/VW 502 00 motor oil approvals as required for the 3.0T engines. The 5w30 kit offers a quality RAVENOL HPS synthetic blend for the more cost conscious individual, while yet maintaining Audi/VW 502 00 oil specifications as required for the 3.0T Audi engine. Both motor oils meet extended oil change intervals according to Audi recommendations.

We wish to thank our customers for their continued support! For over 27 years Blauparts vision has been to provide the highest quality products along with the best customer service! We feel our Audi oil change service kits are an excellent reflection of our company values and of the quality your Audi A8 automobile should be serviced with. Please feel free to contact us with any questions you may have on our oil change kits.
